

NEW! IP CAMERA SOLUTIONS FOR INTERNET AND NETWORK SURVEILLANCE

Small Hardware Investment, Easy Configuration, Free Camera Software

For over 25 years, MilesTek has been a reliable resource for security and surveillance products. MilesTek now introduces a variety of IP cameras that are a powerful, economical solution for IP / network surveillance applications.

Traditional CCTV systems can require substantial investment in deployment. Hardware such as wiring, monitors, network DVRs and sometimes difficult-to-use proprietary software can lead to increased labor and material costs.

With MilesTek's new IP CMOS Cameras, very little equipment needed, set-up is easy, and the user-friendly Cam Viewer Lite software package is included.

Perfect for use in small businesses and residential applications, each IP camera has an integrated microcomputer and a high quality CMOS Digital-Image-Sensor, enabling it to display high quality live streaming video over the LAN and Internet.

5 IP Cameras to Choose From:

- **IP CMOS Camera with A/C Power Outlet**
PC, Network Switch and CAT5E cable needed
- **IP CMOS Power-Over-Ethernet Camera**
PC, Network Switch and CAT5E cable needed
- **IP CMOS Wireless Camera**
PC and Wireless Access Point/Switch needed.
- **IP CMOS/IR Camera with A/C Power Outlet...**
IR sensor for monitoring in complete darkness...
PC, Network Switch and CAT5E cable needed
- **IP CMOS/IR Wireless Camera**
IR sensor for monitoring in complete darkness...
PC and Wireless Access Point/Switch needed

Installation and set-up are as easy as 1-2-3:

1. Mount camera at desired location
2. Connect network cabling between PC, switch and IP Camera
3. Install free user-friendly software package for camera on PC

Flexibility, Affordability and Reliability

NEW! IP CAMERA SOLUTIONS FOR INTERNET AND NETWORK SURVEILLANCE

Small Hardware Investment, Easy Configuration, Free Camera Software

IP Camera Software Features and Benefits:

- Very little equipment needed, easy configuration, free camera software
- Wired, POE and Wireless versions available
- Records an event or certain window of time
- Users can be notified via email or an alarm system triggered if motion is detected
- Detects and records motion or a specific area of motion
- Recordings can be saved as video or picture files to then email
- Built in audio/microphone allows 2-way communication between different camera points
- Supports Windows-based and Web-based monitoring utility

CMOS IP Camera Options:

PART #	DESCRIPTION	RETAIL PRICE
90 10600	IP CMOS Camera	\$160.00
90 10601	IP CMOS Camera PoE	185.00
90 10602	IP CMOS Camera Wireless	200.00

	90 10600	90 10601	90 10602
Networking Interface	1 x 10/100Mbps	1 x 10/100Mbps	1 x 10/100Mbps
Wireless Interface			IEEE801.11b/g
PoE Interface		IEEE802.3af	
Max Resolution	640 x 480 (30fps)	640 x 480 (30fps)	640 x 480 (30fps)
Lens	3.6mm/f2.0	3.6mm/f2.0	3.6mm/f2.0
Image Compression	M-JPEG	M-JPEG	M-JPEG
Sensitivity	1.9Lux	1.9Lux	1.9Lux
Max. Login User	5	5	5

90 10603

CMOS IR Camera Options:

PART #	DESCRIPTION	RETAIL PRICE
90 10603	IP CMOS/IR Camera	\$230.00
90 10604	IP CMOS/IR Camera Wireless	315.00

	90 10603	90 10604
Networking Interface	1 x 10/100Mbps	1 x 10/100Mbps
Wireless Interface		IEEE801.11b/g
Max Resolution	640 x 480 (30fps)	640 x 480 (30fps)
Lens	3.3mm/f2.8	3.3mm/f2.8
Image Compression	MPEG4/M-JPEG	MPEG4/M-JPEG
Sensitivity	1.5Lux	1.5Lux
IR Distance	10 meters	10 meters
Microphone	Built-in	Built-in
Audio Out	Phone Jack	Phone Jack
Max. Login User	10	10
3GPP	Yes	Yes

90 10604

Network Switches

10/100/1000 Ethernet Switches

Desktop

PART #	PORTS	RETAIL PRICE
90 30144	5	\$92.00
90 30474	8	126.00

Part # 90 30144

8-Port PoE, 10/100 Switch (4 PoE Ports)

PART #	PORTS	RETAIL PRICE
90 30147	8	\$122.50

Part # 90 30147

Wireless PoE Access Point

Part # 90 30493

Part # 90 30494

Part # 90 30493 accommodates data rates up to **54Mbps**. This unit supports various address filter functions for wireless network security.

Part # 90 30494 has a dual-band design to accommodate data rates up to **108Mbps**. This high-speed access point offers network security functions as well as web managed options.

PART #	DESCRIPTION	RETAIL PRICE
90 30493	54Mbps Wireless PoE Access Point	\$97.50
90 30494	108Mbps Wireless PoE Access Point	235.00
